ACADEMIC COLLEGE & DEPARTMENTAL SHOWCASES

Showcase Instructions

• Please visit the college/departmental table at the Academic College Fair between 10 and 11 a.m.
• Please make sure to arrive at the meeting place at 1 p.m.
• Showcase numbers below correspond with location. See map on page 4.

1 College of Agricultural Sciences
   Agriculture Building, Room 209
   Come see why the College of Agricultural Sciences should be your next home! Learn more from faculty, staff, and current students about all the college has to offer. Our Living Learning Communities, classes, labs, and of course our 2,000-acre on-campus farm system are just a few topics that will be discussed!

2 College of Applied Sciences and Arts
   School of Allied Health
   Available upon request, see school table during Academic College Fair from 10-11 a.m. to sign up.
   The School of Allied Health offers a wide variety of programs in the health care field: Dental Hygiene, Health Care Management, Mortuary Science and Funeral Service, Physical Therapist Assistant and Radiologic Sciences. Join us for an in-depth information session about the fast-growing industry and how you can help you find the career best suited for you!

3 School of Architecture
   Quigley Hall, Room 119
   The School of Architecture has been laying the foundation for success with bachelor’s degree programs in Architecture, Interior Design, and Fashion Design and Merchandising. Stunning portfolios emerge from a friendly and innovative studio culture preparing graduates for entry into high level positions in their chosen careers. Join us for an in-depth information session to learn more about how the School of Architecture can help you draw up the plans for your professional career!

4 School of Information Systems and Applied Technologies
   ASA Building, Room 106
   Available upon request, see school table during Academic College Fair from 10-11 a.m. to sign up.
   The Information Systems Technologies program prepares students for careers in a wide variety of work settings that rely on computerized information technologies to accomplish organizational goals. In addition to providing awareness of technological, economic, political, social, and cultural factors many courses require significant “hands-on” computer activities related to applications software, networking communications, an computer troubleshooting and maintenance ensuring that students come out of our program ready to apply their skills in the field.

5 College of Business
   Rehn Hall, Room 108, West entrance
   Internationally accredited, the College of Business provides a vibrant and innovative educational experience for students. We are committed to the highest standards of excellence in pursuing three core academic functions of teaching, research and service. Please join the College of Business for a one-hour discussion with faculty, staff and current students to learn about academic programs and services available exclusively to business students.

6 College of Education and Human Services
   Departmental Showcase locations will vary by department. Sign up 10-11am. at department tables during the Academic College Fair.
   We’ll introduce you to our hands-on learning labs and present exciting academic/professional opportunities in: Early Childhood, Elementary Education, Secondary Education, Special Education, Public Health, Recreation Professions, Exercise Science, Rehabilitation Services, Social Work, Sport Administration, Workforce Education & Development, Behavior Analysis & Therapy, Communication Disorders & Sciences.

7 College of Engineering
   Engineering Building, A Wing, Room A-131
   The College of Engineering is one of the fastest growing colleges on campus. Join us for an in-depth information session to learn about our majors. Check out our award-winning, student-built moonbuggy, or one of our other student projects, and take a tour of our college to see how engineering students get hands-on experience at SIU.

8 College of Liberal Arts
   School of Art and Design
   Allyn Building, Room 103
   The School of Art and Design conducts tours of its facilities as interest warrants. Please see a representative at the Art and Design table to arrange yours!

9 Department of Economics
   Farner Hall, Room 4121
   Come try a data science activity that uses economic data and cutting-edge software to predict the income benefits of going to college. Our world-renowned faculty train students to explain and predict market outcomes, and regular economic coursework can be paired with real-world economics internships and engaging student interactions via the Economics Club and Blockchain Economics Club. Generous scholarship money, for economics majors, is a bonus, as is a bachelor’s + master’s fast-track combined college degree in economics.

10 Department of Psychology
   Life Science II, Room 285D
   The Department of Psychology is one of the strongest and most diverse programs on campus. We offer a wide range of courses and choices for students with varied interests and career plans. Come meet students and faculty excited to tell you more about the programs and opportunities for you in Psychology at SIU.

11 Department of Theater
   McLeod Theatre Lobby
   The Department of Theater blends scholarship and practice into an academically based theater experience that provides students with broad-based exposure to the human experience and a sound foundation in the skills of theater craft. Graduates will be able to apply their knowledge of performance, production, theater history and literature, and contemporary practice in a wide variety of theater venues. Graduates will also be able to demonstrate intrapersonal and interpersonal skills in the form of leadership qualities, self discipline, creative expression, critical thinking, and the ability to work effectively as part of a collaborative team.

12 College of Mass Communication and Media Arts
   Communications Building, Dean’s Conference Room 1032
   Come learn about majors in the College of Mass Communication and Media Arts from our own faculty and students. You will learn about classes, student involvement opportunities, internships, resources, and more. Ask current students questions during the student panel, explore our studio spaces and media labs, and mingle with professors as you come to see why our college is right for you.

13 College of Science
   Student Services Building, Room 170
   The College of Science is dedicated to the study of the biological, physical, and informational worlds. The innovative research of our faculty and students today will lead to advancements tomorrow. Visit our showcase to discover how to be successful as a science student and how to train as a future science professional.
